

BUREAU OF JUSTICE ASSISTANCE

The following pages outline general questions and performance measures for the Bureau of Justice Assistance (BJA) *Adult Discretionary Drug Court Grant Program (Drug Court Program)*. The Drug Court Program is designed to build and/or expand capacity at the state, local, and tribal level to reduce crime and substance abuse among high-risk, high-need offenders. The performance measures indicate to what extent grant activities meet the following objective:

Implement, improve, enhance, and/or expand drug court services to reduce substance use and recidivism of drug court participants.

The *Drug Court Program* performance measures are reported in two formats—quantitatively (numeric) and qualitatively (narrative responses). The quantitative data are entered in the BJA Performance Measurement Tool (PMT) for each quarterly activity period, referred to as a reporting period. The qualitative data consist of seven open-ended questions reported in July and January of each calendar year based on activities that occurred during the previous 6-month period. The activities that are entered are specific to the grant being reported.

PLEASE NOTE: THE INFORMATION REPORTED IN THE PMT SHOULD BE BASED ONLY ON BJA-FUNDED ACTIVITIES.

COURT AND CRIMINAL INVOLVEMENT - . This section is to be completed at the close of the grant only.

The next set of questions is about court and criminal involvement for Drug Court Program participants. Note that individuals can be included in more than one category. For example, a Drug Court participant could be arrested and have a conviction; thus, the individual should be counted in both categories. If an ex-offender has multiple arrests or convictions, only count that individual once.

39. Since the **start** of this **BJA program funding**, please enter the number of participants who:

Are still participating in in the Drug Court program? _____

Have successfully completed the Drug Court program? _____

Exited the Drug Court program unsuccessfully? _____

40. Since the start of the BJA award, enter the **total number of participants** who have had a **criminal court** and/or **criminal involvement event**. *A participant can be counted in more than one category (i.e., an individual can have an arrest and a conviction). However, do not count the frequency of events (i.e., number of arrests and convictions). Pending charges that the individual had before entering the program should not be counted. New charges that are dropped and/or not prosecuted should **not** be counted.*

2. What goals were accomplished, as they relate to your grant application?

All goals accomplished and/or exceeded since opening on 5/1/2017. 1. Program is a new model and has flourished with all stake holders buying in to the process, stakeholders meeting on regular basis last meeting held 5/2017. 2. Current numbers indicate that we continue to screen a greater number of individuals than projected in grant application. More importantly we are assisting/treating/monitoring more individuals thru grant period than projected. Case processing has all but been eliminated other than the formal arraignment. 3. Currently, all participants have been placed in treatment within 48 hours. 4 have been re-arrested for petit larceny, 10 have regained their employment from previous employer, and all are currently housed in non-emergency shelter housing. 4. Several members of Buffalo City Court have attended the NADCP conference (Houston) Several in service trainings/Webcasts have been conducted thru the last 6 months.

What problems/barriers did you encounter, if any, within the reporting period that prevented you from reaching your goals or milestones?

Initial contract delays, delayed the opening of the court until 5/1/2017. All contract issues have been addressed and further delays did not occur. Last special condition to be satisfied (evaluation plan) submitted by/on 7/30/2017. No new problems since last report.
